

# Top 7 Tips for Using Altmetric at Your Institution

Altmetric.com | @altmetric altmetricexplorer.com support@altmetric.com

#### Introductions

Liesa (Baltimore, MD)

Director of Market Development

20+ years working with scientific organizations to reach, serve and engage their customers and stakeholders

Joined Altmetric in June 2019

#### Patty (Chicago, IL)

Senior Engagement Manager

5 years as a librarian in both hospital and academic environments, where she developed a passion for science communication and research impact.

# Session Goal: Learn how you can use Altmetric data

- 1) Publish strategically
- 2) Track diverse outputs
- 3) View early feedback
- 4) Discover collaborations
- 5) Gain competitive insight
- 6) Search by funder
- 7) Form narratives

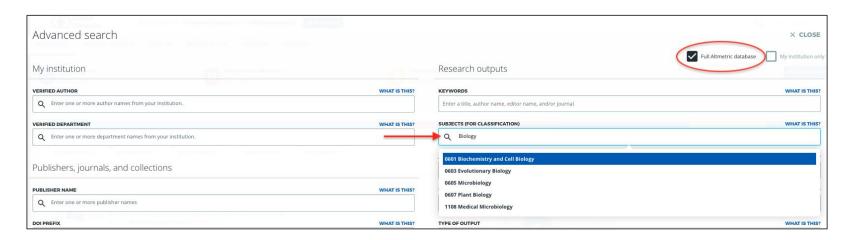

Discover journals in specific subject areas that receive broad attention

Discover journals in specific subject areas that receive broad attention

Search by Field of Research codes (FoR)

Classification system developed in Australia - codes are assigned at the paper level, not the journal level

Discover journals in specific subject areas that receive broad attention

How was my

received?

#### Tip 2: Track diverse outputs

Credit where credit is due - track outputs beyond journal articles and discover attention

#### Tip 2: Track diverse outputs

Credit where credit is due - track outputs beyond journal articles and discover attention

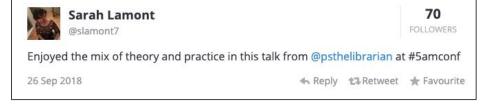

How was my presentation received & how is this useful?

- 29 tweets from 24 users
- Immediate feedback on slides
- Inform future presentations
- Direct others to slide deck
- Network opportunities (especially in conference settings)
- Monitor sentiment, i.e. did my presentation spark debate?

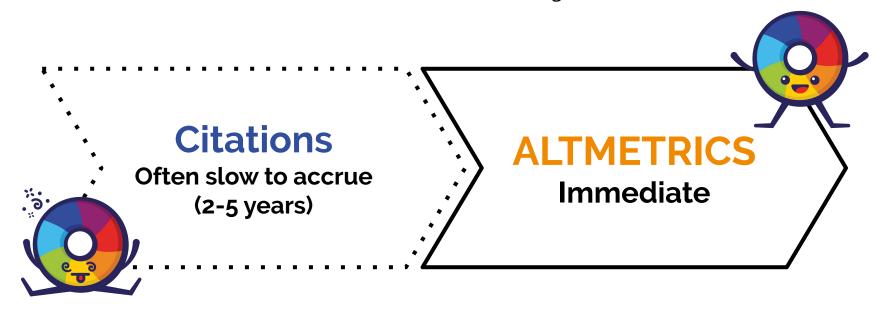

Use altmetrics to discover attention research is receiving online in real-time

Use altmetrics to discover attention research is receiving online in real-time

#### Especially useful for:

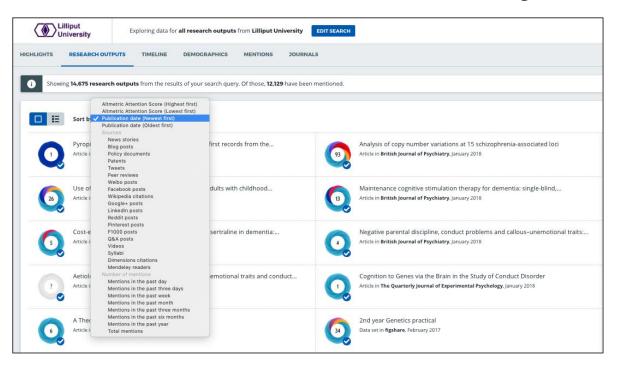

- Early-career researchers
- Demonstrating impact of recently published work to funders and in grant applications and renewals
- Highlighting successes in real-time (great for communications/marketing on campus)
  - E.g. a monthly research round-up congratulating researchers across campus on a job well done.

Use altmetrics to discover attention research is receiving online in real-time

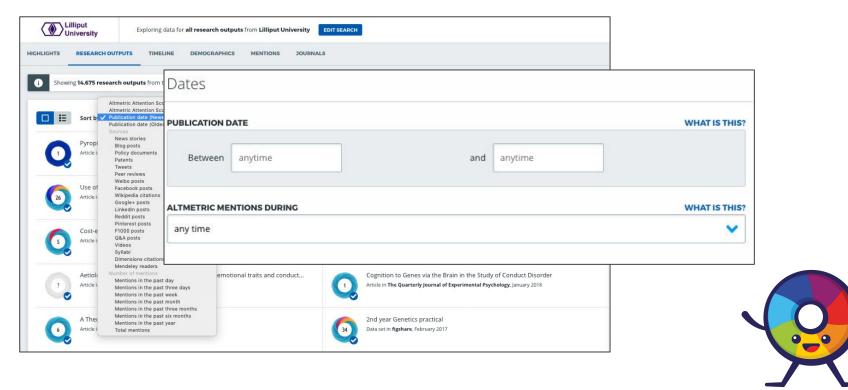

Use altmetrics to discover attention research is receiving online in real-time

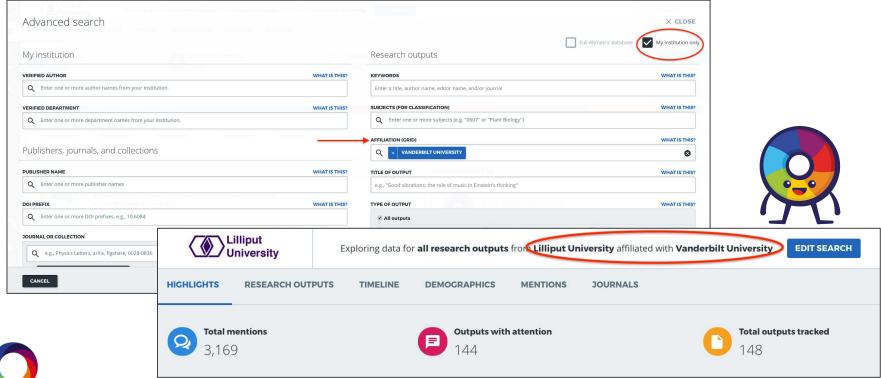

#### Tip 4: Discover collaborations

Track collaborative efforts between institutions

### Tip 4: Discover collaborations

Track collaborative efforts between institutions

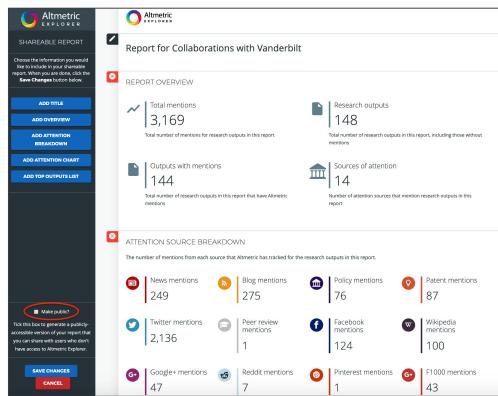

#### Tip 4: Discover collaborations

Track collaborative efforts between institutions

Make it public to share - even with people who do not have access to Altmetric Explorer!

#### Tip 5: Gain competitive insight

Track peer institutions. What kind of attention are they receiving?

### Tip 5: Gain competitive insight

Track peer institutions. What kind of attention are they receiving?

- Use for internal reporting
- Demonstrate performance to alumni and attract donations
- Use for recruitment
  - New faculty
  - New students

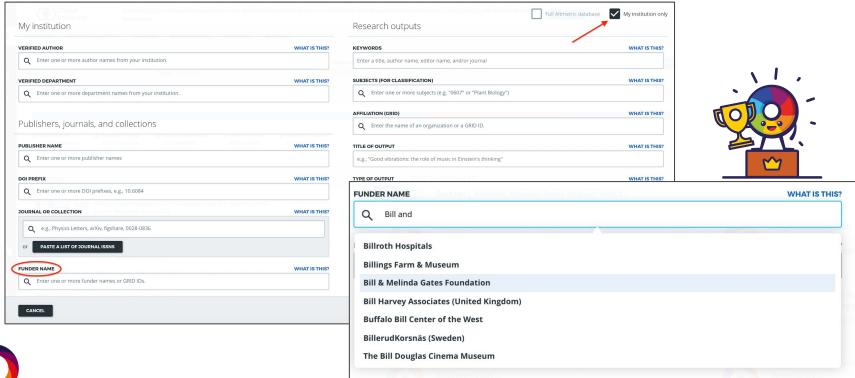

"In the last 5 years, research at Lilliput University has been featured in the news 20% more frequently than peer institutions."

#### Tip 6: Search by funder

See who is talking about your funded research

### Tip 6: Search by funder

#### **Tip 7: Form narratives**

Use altmetrics to describe the reach and impact of research

Example scenario: A department would like to demonstrate and describe the impact of their work for a grant application.

First, use Altmetric Explorer to search for research outputs and start building context around how people and organizations are using and discussing this work. Consider starting with:

- Policy mentions
- Mass media mentions
- Patent mentions
- Social media mentions

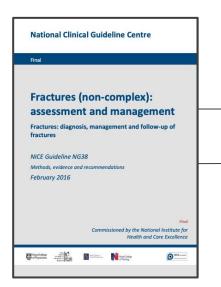

#### **Policy citations**

Oral administration of morphine versus ibuprofen to manage postfracture pain in children: a randomized trial

Review question: What is the most effective initial acute pharmacological management to alleviate pain in patients with a suspected long bone fracture (tibia and fibula, humerus, radius and ulna, or unspecified) in acute care settings?

#### Oral NSAIDs versus oral morphine (children)

Moderate quality evidence from a single RCT of 134 patients demonstrated no clinical difference between the interventions for change in pain score, with no serious imprecision.

Moderate evidence from a single RCT of 134 patients demonstrated a clinical benefit with oral NSAIDs between the interventions for incidence nausea, with serious imprecision.

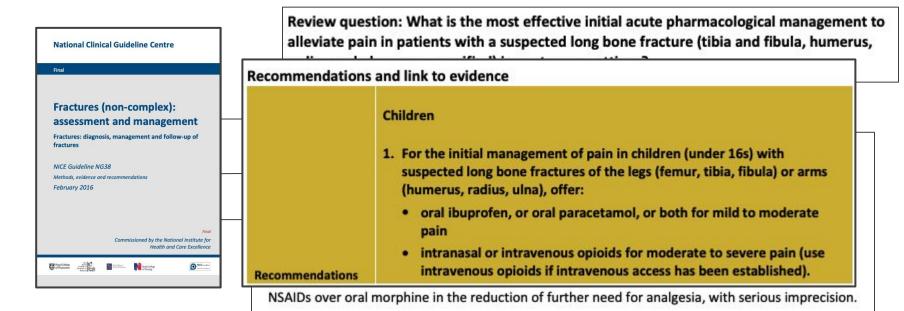

Moderate quality evidence from a single RCT of 134 patients demonstrated a clinical harm of oral NSAIDs over oral morphine in the reduction of further need for analgesia, with serious imprecision.

#### **Policy citations**

Oral administration of morphine versus ibuprofen to manage postfracture pain in children: a randomized trial

#### Mass media attention

Oral administration of morphine versus ibuprofen to manage postfracture pain in children: a randomized trial

For Kids With Broken Bones, Ibuprofen
Is Safer And Just As Effective As
Morphine

( REUTERS

BY KATHRYN DOYLE Tue Oct 28, 2014 1:37pm EDT

(Reuters Health) – The narcotic drug morphine is not the best choice for pain relief in kids with broken bones, a new study suggests.

#### **Mother Jones**

#### Blog & Podcast:

# Social media attention

Oral administration of morphine versus ibuprofen to manage postfracture pain in children: a randomized trial

#### **Tip 7: Form narratives**

Use altmetrics to describe the reach and impact of research

#### Key considerations:

- Who is benefitting from the research?
- When/where are conversations taking place?
- So what?

#### **Tip 7: Form narratives**

Use altmetrics to describe the reach and impact of research

"This work informed non-complex fracture guidelines from the National Institute of Health and Care Excellence recommending that pediatric patients receive ibuprofen to manage mild to moderate pain. More broadly, this research has influenced conversations in mass media surrounding opioid addiction; it has also been described on social media as "practice changing" research by clinicians and government officials, evidencing the dissemination of this work to audiences beyond academia."

## **Final Thoughts**

### To learn more and to see Altmetric Explorer in action, attend our workshop tomorrow at 11:45!

In the workshop, we'll walk you through example scenarios and demonstrate how to:

- Craft an advanced search strategy using
  - Field of Research codes
  - Funder filter
  - Affiliation search
  - Dimensions/Altmetric search integration
- View results in the Explorer interface
- Create a shareable report

#### Day 2: The Altmetric Reporting Workshop

#### Feedback Polls at www.menti.com

If you attended our 11:45 a workshop on Wed, Oct 2, or are familiar with Altmetric reporting, please provide feedback on the following reporting processes demonstrated.

Scenario 1: Where should they publish?

Scenario 2: Research online attention to enhance grant application.

Scenario 3: Report on institutions funded by X funder.

Scenario 4: <u>Track our</u>
<u>research and others' to</u>
<u>view public and political</u>
response

Scenario 5: What's been the impact on policy, guidelines, the public?
